## How long will you contend with the frustrations of a workplace that simply doesn't flow?

**K**erry Anne Nelson is known amongst her friends, family and clients to be a woman obsessed with formalising workplace processes to make things run smoothly. It was no surprise to her community when she decided to turn that into her career. Kerry Anne's life experience almost brought her to her knees when her husband passed away unexpectedly, and she was left to salvage a business that had NO systems or processes in place. It was a nightmare.

**S**ince then, Kerry Anne has become Australia's most passionate advocate for systemising businesses. She takes business owners by the hand to help them avoid the pain of managing their staff without documented processes. She has so much to offer after two decades of hands-on practical experience growing her own businesses across service and retail industries, in both online and brick and mortar outlets. Kerry Anne now works as a Workplace Process Architect. She uses her Lean Six Sigma training to maximise her years of experience in strategic management, workplace training, business events, and team leadership to help clients achieve big wins in their ongoing business growth.
